Dare for the Truth - The Card Game

'Dare for the Truth' is the Purple Cow attempt to 'tame the beast' of the wild classic game and make it safe and FUN and accessible to a broader range of audiences. It's the World's first card game to come in a bottle! It's a great way to learn more about your friends and family, maybe even more than you ever wanted to know...

We've made 3 versions:

1. The classic 'PARTYYY!' version with all the embarrassing quests and intrusive 'Truth' questions.
2. The bonding 'Family' version - want to see daddy doing hilarious 'Dares', want to hear your kid's dreams and fears? This is just the game for you.
3. The 'Outdoors' version - what can be more suitable than playing this game near a bonfire outdoors? We created 'Truth' questions and 'Dare' tasks to fit the occasion.

The Crazy Scientist Lab

The world around us is intriguing; Children can gain much joy from experimenting with it and learning about it. These science kits provide children the opportunity to become real researchers for a few hours and to experiment with their own private laboratory. These science kits come equipped with the necessary equipment and include a clear guide accompanied with photos of the processes as well as fascinating scientific explanations & facts. Parental supervision required.

Young detectives

This kit focuses on finger prints. Children will experiment with producing their own fingerprint and interpreting it. They'll learn how to extract fingerprints from various surfaces using different materials. Just like real crime scene investigators they even create a 3D mold of their finger!

Ages: 6+

Barcode: 7290014368910

Water Gel Science

This kit focuses on water gels. Children will experiment with the special characteristics of polymers and how they interact with water and other substances. They'll perform fun science tricks such as the "vanishing beads" & the "disappearing water" and they'll even get to create a unique bracelet made of water gel.

Ages: 8+

Barcode: 7290014368903

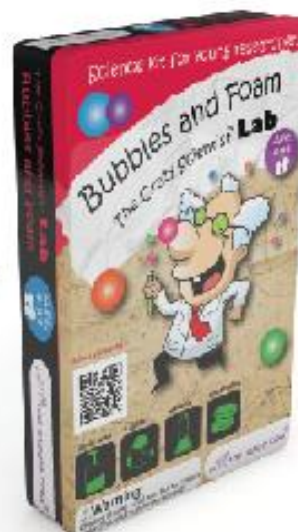

Color Laboratory

This kit focuses on colors. Children as young as 4 will experiment in creating an ice ball with colorful tunnels, creating color solutions and transforming and mixing colors, and even painting with colorful ice! Find all these and more in this kit.

Ages: 4+

Barcode: 7290014368934

Bubbles and Foam

This kit that focuses on water, colors, and bubbles, makes science accessible to children as young as 4! Children will create a soap membrane, a foam beehive, learn to hold a bubble without popping it, create colorful bubbles and even paint with colorful foam. Find all these and more in this kit.

Ages: 4+

Barcode: 7290014368927

Oppenheim Toy Portfolio - Gold Seal Award

Young Survivor
Darwin once talked about "Survival of the fittest" so you better be fit to survive! A survival situation is not a game when your life is on the line, but it is SUPER COOL to learn survival techniques: learn how to distill, purify and generate water from plants, how to light fire without matches, how to build a solar stove, to build a sundial, a compass, learn Morse code, and much more. Over a dozen experiments in this kit.

Ages: 6+
Barcode: 7290016026191
Item#: 191

Magical Mirrors
Most people don't think twice about mirrors. However, the magical world of mirrors from a science perspective is quite amazing. Over a dozen experiments that will blow your mind – the "Infinite Mirror", the "Disappearing Face", building your own Kaleidoscope to name a few. Looking at mirrors will never feel the same!

Ages: 6+
Barcode: 7290016026184

doodle a droodle

Ready, Sketch, Laugh

Oppenheim Toy Portfolio - Gold Seal Award

"The Purple Cow" brings the "Doodles" back to life with a twist!

Doodles are nonsense amusing cartoons that were originally created in the early 1950s.

The name "droodle" signifies a mix between a "doodle" (a sketch) and a "riddle".

In this entertaining droodle game, players need to think creatively and sketch their interpretation of the droodle.

If they did a good job in sketching – they win points. A good laugh is guaranteed!

This game assists in developing fine motor skills, creative and "out of the box" thinking as well as sharpening one's sense of humor!

Inside: 108 droodles, erasable tin board, 2 erasable pens, a sand timer & instructions booklet.

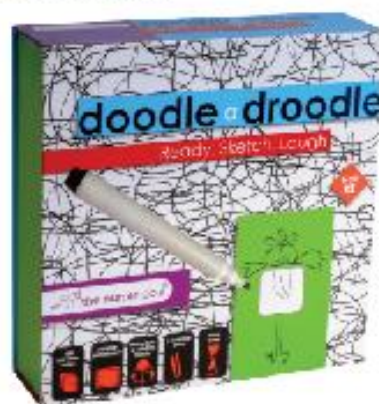

Ages: 5+, **Players** 1-10,

Dimensions: H9.8" X L9.8" X W2.7"

H25 X L25 X W7cm

Barcode: 7290016026108

Item#: 108

Hive Q - Go Fish Trivia Game

hive Q- knowledge boost card games.

Accessibility to information for the young internet generation is easy. But how do we help them retain the information and transform it to inherent knowledge? These games do just that. They are the world's first cross between a "Go Fish" and a "Trivia" game, thus allowing learning from a younger age.

The play value is not limited to broadening the horizons of the young players, it does much more. The games introduce the players to the world's greatest individuals - scientists, explorers and inventors - and their accomplishments, thus showing them how far they can dream. Other titles in the series present fascinating world landmarks, countries and intriguing facts about the world around us.

Greatest care was invested in the design of the box as a Bee Hive - a place of intensive conscientiousness.
